Serving with Campus Bible Fellowship  
University of Toledo

Dear Friends -

I am back! That is – I'm back to Toledo after a great but challenging month away. I spent a fantastic three weeks in California at the Master College taking seven classes. I am blessed to be able to be a part of the Biblical Counseling program. The teaching is stirring my heart to change! I have a renewed love and appreciation for God's grace toward me as well as His goodness in the sufficiency of the Scriptures. I am looking forward to God's continued transformation in me as well as the opportunity to share what I am learning so others might be transformed as well.

The Lord has provided for 100% of my schooling for these first seven classes through many of you. Thank you!! The Lord willing, I will be done with these seven classes at the end of October. I am hoping to take just one course from November through February, then a full load again in March.

Please forgive me for not writing sooner to give you an update on our spring break trip to Biloxi, MS or conclusion of the semester. Our spring break Katrina relief effort went well. Twenty-one of us were able to get a lot done. We were able to take a professional craftsman who was able to give us some needed guidance and direction as we cleaned up several homes and demolished too many walls to count. Two students brought along unsaved friends. These two had the opportunity to hear the gospel as well as see the result of the gospel lived out in the rest of the nineteen lives for the week we were together. Thank you for your prayers.

The Bible study I taught during the spring semester ended well. We were able to get through all of the book of John. It was fun to see three girls become more comfortable and open with me. One of the girls, B, was a believer. I took the other two girls (N and K) out for lunch before school was finished. They both made professions of trusting the Lord. Please pray that they will grow in this new relationship with the Lord, and they will tell others about Jesus.

School begins at The University of Toledo **August 21!!** We will again do our Mocha Bomb/Fruit Smoothie survey on campus the day before school begins. **Monday, Tuesday, and Thursday** evenings of that first week we will be blitzing the campus to make contacts with the students who filled out the surveys. Our first Campus Bible Fellowship study will be on **August 23**. Our goal this year is to have a stronger emphasis on evangelism and evangelistic studies through the year. We are striving to allow the local church (Emmanuel) to do discipleship. We will also be having a table in the Student Union twice a month at lunchtime near the food court. The, "Get the Word Out," table is staff and students play funny games and mingle with others on campus and invite them to the Bible studies and events. We will have tail-gate parties on **Sept. 15** and **Nov. 21** (burr!). Our fall retreat this year will be **Sept 29-Oct 1** with the theme of sexual purity that begins in the heart.

I am so grateful for your support! Please join me in praying that God will bring many students into His fold in the 2006-2007 school year. I am striving to make Jesus known to the University of Toledo!
